My Immortal

"Prologue - But You're My Universe"

We'll find a way. We'll cure the solver, or disconnect you from Cyn's network like you did for me & V!

I'm afraid it's too late.

Don't say that! Please, I... I can't loose you too.

I love you, Uzi.

I love you too, N.

Go on then ...

But you're my universe.

... Save the universe.

"Chapter 1 - Welcome To Tungsten-13"

Welcome to Tungsten-13, fellas! A human sub-planet that they surprisingly haven't yet blown up their core or atmosphere on.

Which means I can take this thing off.

Remind me why we brought "Mr.Broody" over there?

About 40 meters.

Spikey rocks bellow.

Now, J. He's a valuble member of the team.

And family, too!

Would I survive?

Maybe not with the water.

Plus, he always knows how to make us smile.

deep breath

I'm coming, Uzi.

Ain't that right, N?

What the-!

N!

Oh boy. J, get his clothes.

I'll meet him at the capsule.

Sigh Yes, sir.

A few mintues later...

Tsssssssss.

W-What? I'm...

Alive? Yeah.

Thank god for Drone cloning.

Mind telling me how you got so close to the edge?

Are your sensors working properly?

Did the cliff give out?

You wouldn't understad, Tessa.

Hey, clutz! I brought your coat. You'll hafta sew the holes yourself.

Ugh. You still have that worker drone's beanie in your pocket?

Cringe.

I'm going for a walk. Don't wait up.

Just... Keep away from any cliffs.

DON'T YOU EVER TOUCH HER HAT!!!

Whatever.

Technically...

... Not a cliff.

Gh!

Issss!

That stings.

Heh heh

-dzzzt

Drinking water like a person!

Feels weird.

COME ON, FILTHY HUMAN SCUM!

BITE ME!

Ha

N. What's this?

Waiting for the sun to rise.

Smog on Tungsten-13 is too thick for you to burn.

...

Sigh

I know what you're doing.

I need you to stop it, though. We're running out of clones for you.

Good. Then run out.

You don't get it, N.

Cyn has more of you out there.

So... What are you saying?

In a way, yes. We don't know how many she has...

But if we run out of our clones, you'll be in the belly of the beast, with no chance of rescue.

Cyn... Made me...

...I'm immortal?

Why is she doing this!? Why is this happening!?

It's not fair!

This... is war, N.

War's not fair.

Shhh. Come here.

. . .

There's... Nothing artificial about drone intelligence, is there? You guys are more than sentient.

You're an artificial lifeform with real thoughts and emotions. I'm sorry about the way me and my kind have treated you all, and...

I'm so sorry for what I had to do to your friend. If there was another way, I should've tried harder. And I know my apology won't bring her back. But, I promise to be a better friend to you.

Is there... Any way at all to bring Uzi back?

Unfortunately no. Not without full access to her consciousness, and a drones consciousness only lasts a short time without a functioning host.

*sigh

Alright

Let's just get this mission over with.

Actually, 'bout that. (Bad timing I know, but...) You've sorta been banned from city limits due to your recent "stunt".

And JCJenson has ordered me to bench you for the time being. (Could've been worse honestly if I didn't intervene.)

So instead, I'm giving you your own mission! And that's to guard the pod and protect everything inside.

...

Including V's capsule.

V? She's not... She's here?

ERROR
Subject:SD-V-06
Her consciousness did transfer over after... Her sacrifice. But some kind of corruption is preventing a boot-up.
ERROR
Corrupted data detected
So cause of it she's now in a state of comatose. Unless I can find and fix the corrupted data, I'm afraid she's stuck like this.
Can she hear us?
I like to think so. But, I have no idea. Still, nothing bad should happen just by chatting with her.
Tell that to the times I've been decapitated.
Can I... Have some time alone with her?
Absolutely. In fact, J and I should really get going now. We'll be back in a few hours. Please stay in the pod.
Take your time.
...
Door closing sound
sigh
V... I screwed up again. If you ever do wake up, I don't blame ya for hurting me cause of this rant, but...
... I can't take it anymore! Allways failing the people I care about. You, Cyn... And now Uzi!
I...
I promised that we'd stick together! And now she's gone and we're on a new stupid planet!
Heck, her dad doesn't even know anything!
I can't even fake a smile like I used to. I don't know who I am anymore or why I'm even still fighting.
I have to get out of here. It feels like I'm losing my mind.
I'll leave Tessa a note with you, but I don't know how long I'll be gone.
Hopefully, I'll see you again walking around and being badass like always.
Untill then... Goodbye, V.
